Mantell-Hecathorn Builders Inc

1540 Sheep Springs Road

\$2,250,000 (SOLD)

This craftsman-inspired mountain home is typical of Mantell-Hecathorn Builders' standard of quality without compromise from foundation to finish. The two story exterior of this home features a combination of old world stone masonry, timber framing and cedar shingle siding that sets this home apart.

Every room offers panoramic views of the La Platas, Twin Buttes, Bodo Mountains or San Juan Mountains. The 5400 sq. ft. home includes five bedrooms and five baths (two are half baths), a separate recreation room, enclosed breezeway, plus three viewing decks, 2100 sq.ft. of stone patios, and a three car garage, all on 35 beautiful acres in Durango Ridge Ranch nine miles west of Durango off Highway 160.

The interior is breath-taking: walking through the custom entry one looks east past the 2nd story bridge to the great room wall of glass and endless mountain views. Vaulted ceilings and expansive gabled windows take advantage of the views in the spacious upstairs bedrooms. Slate and hardwood floors complement the mission style custom cherry cabinetry and stone features in the gourmet kitchen and great room. Bathrooms are also wrapped in the warmth of natural stone and wood finishes. The stair and bridge railings and the finish trim throughout the house are detailed from clear cedar in the craftsman tradition.

Thirty-two years of building exceptional homes for clients with the highest standards has earned Mantell-Hecathorn Builders a remarkable reputation for personal attention to their clients' visions, one home at a time.
