

Artistic homes has selected Bayfield as their newest location to offer their popular and award winning homes. This Artistic Home features solar and photovoltaic solar package panels to fully offset the conventional cost of hot water and electricity.

Artistic Homes is dedicated to the science of home building and they use the latest and best techniques and materials for building high efficient, high performance, safe and healthy homes. Artistic homes are typically 40% more efficient than the average code built home. These homes are rated with the Home Energy Rating Systems (HERS) and they are Energy Star® Rated and LEED certified—a measurement for building sustainability which demonstrates that your home is truly a “green” built home.

These homes are offered in Dove Ranch with many floorplans to choose from and pricing starting below \$200,000. With the overwhelming response, we are now taking reservations for our next phase, Park Place. This home is a “MUST SEE” in this year’s Parade of Homes™!!

Directions: Take US Highway 160 east to the GIANT light. Turn north on County Road 501 and travel 1.4 miles to Dove Ranch Road entrance on right. Stay on Dove Ranch Road to the second right, which is South Taylor Circle, and the home will be on your left.

1632 South Taylor Circle
Bayfield

HOME FEATURES
